PROFESSIONAL SUMMARY

Performance-driven Frontend Developer with over 3 years of experience building high-quality, accessible, and responsive web applications. Expert in modern JavaScript frameworks (React, Next.js) and semantic UI architectures. Proven track record of optimizing client-side performance, improving SEO scores, and translating complex Figma designs into clean, pixel-perfect production code.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL
Frameworks & Libs:	React.js, Next.js, Redux Toolkit, Tailwind CSS, Bootstrap, Material UI
Tools & DevOps:	Git, GitHub, Vite, Webpack, npm/yarn, Chrome DevTools, Firebase
UI/UX & Testing:	Figma, Responsive Web Design, Accessibility (WCAG), Jest, React Testing Library

PROFESSIONAL EXPERIENCE

Frontend Developer • *TechHive Solutions* Jan 2024 – Present

- Architected and deployed a responsive SaaS dashboard using **React and TypeScript**, resulting in a 35% increase in user engagement.
- Optimized Core Web Vitals and asset loading strategies via code-splitting and lazy loading, boosting lighthouse performance scores from 72 to 95+.
- Collaborated closely with UX designers to translate interactive Figma prototypes into modular, reusable UI component libraries.
- Integrated RESTful APIs and optimized state management with Redux Toolkit, reducing API overhead by 20%.

Junior Web Developer • *PixelCraft Digital* Jun 2022 – Dec 2023

- Developed and maintained e-commerce websites utilizing **HTML5, CSS3, JavaScript**, and Tailwind CSS.
- Ensured cross-browser compatibility and full compliance with WCAG accessibility standards across 15+ high-traffic landing pages.
- Streamlined asset build systems using Vite, reducing local development server start times by 50%.

KEY PROJECTS

DevSpace - Developer Portfolio Hub • *Next.js, Tailwind CSS, GitHub API* Live | GitHub

- Built an interactive showcase platform parsing real-time GitHub repository data and user stats using dynamic server-side rendering.
- Implemented custom dark/light theme mechanics and robust responsive behavior down to mobile layouts.

TaskFlow - Kanban Board App • *React, Firebase, React-Beautiful-Dnd* Live | GitHub

- Created a drag-and-drop workflow application complete with persistent local state synchronization and real-time backend updates.
- Designed empty, error, and loading skeletons to elevate system responsiveness and user experience.

EDUCATION & CERTIFICATIONS

B.S. in Computer Science • *State University* Graduated May 2022

Certifications: Meta Frontend Developer Professional Certificate • Advanced React Certification (Scrimba)
